

WHY WORKMATTERS INSTITUTE?

God's purpose for your work far surpasses making a living. The arc of the gospel presents a God who invites ordinary people into His project of redeeming and renewing all things. **As you entered the workforce this invitation to transform culture was extended to you.**

Workmatters Institute is a 3-month faith and leadership development program coupled with a 12-month mentorship program that equips leaders from all industries to integrate their faith and work. **It is 100% spiritual development and 100% professional development.**

“ Work and faith are not separate – learning how work matters to God and what we do **has been more impactful than anything.**
